

Red Hat Ansible Automation Platform skills path

Key benefits of Red Hat training¹

- 25% to 50% more efficient in completing day-to-day IT tasks
- 20% reduction in tickets generated, and a 32% reduction in time to remediate tickets
- Increased rate of effectiveness for new hires from 50% to 77%

“We have a much tighter structure because we rely on Red Hat-trained staff. Our environment is better planned, implemented, and managed because of the level of expertise that comes from being professionally trained. We are more secure, more predictable, and get more bang for our buck because we invest in training.”¹

— ESG study participant

Validate your automation skills

Red Hat® Training and Certification offers training on Red Hat Ansible® Automation Platform for individuals just starting out with Ansible—and for experts who want to learn more advanced automation topics. Our comprehensive curriculum helps Ansible Automation Platform users improve their knowledge and develop skills to boost productivity and advance their careers.

Automation skills path for Linux administrators

To start on this skills path, you must be a [Red Hat Certified System Administrator \(RHCSA®\)](#). Once you have that required certification, or the equivalent skills, you can begin the automation skills path.

[Red Hat Linux® Automation with Ansible \(RH294\)](#)

[Red Hat Certified Engineer \(RHCE®\) exam for Red Hat Enterprise Linux 9 \(EX294\)](#)

[Developing Advanced Automation with Red Hat Ansible Automation Platform \(DO374\)](#)

[Red Hat Certified Specialist in Developing Automation with Ansible Automation Platform exam \(EX374\)](#)

[Managing Enterprise Automation with Red Hat Ansible Automation Platform \(DO467\)](#)

[Red Hat Certified Specialist in Managing Automation with Ansible Automation Platform exam \(EX467\)](#)

RHCE certification, or equivalent the skill level, is required to progress to more advanced Ansible Automation Platform courses:

[Red Hat Services Management and Automation \(RH358\)](#)

[Introduction to Event-Driven Ansible \(DO274\)](#)

Automation skills path for Windows administrators

This path is designed for Windows Server administrators who need to automate administration on Windows Server. No previous experience with Red Hat Ansible Automation or Linux is required.

[Microsoft Windows Automation with Red Hat Ansible \(DO417\)](#)

[Introduction to Event-Driven Ansible \(DO274\)](#)
